

BOSTON AREA DIVING "What If" Scoresheet

- ☆ This chart is to be used by divers and coaches as a quick reference when trying to determine which dives(s) to use in competition.
- ☆ Example: What if a divers gets 6s on a 103B or 4s on a 104C? Find out which is better.
- ☆ The **bold vertical numbers** are the average of 3 judge's scores. The **bold horizontal numbers** represent the degrees of difficulty.
- ☆ The number in each cell represents three scores multiplied by the degree of difficulty.
- ☆ Example: Three 6's on a 1.8 degree of difficulty dive equals 32.40
